The problem is with my while loop, as i am getting this error: unused value of 'i' The following is the code sample: `int i; while (i!= 0) { i--; }` What can i do to fix this? A: You have: `while (i!= 0) { i--; }` The outside variable i, by the time it gets into the while loop, is no longer the same variable you're using for the while loop's increment, because it's been lowered to a lower level scope with the loop's increment. The quick fix here is to move the outside variable i
